# Social Dimensions of Health Institute

Fiona Stephenson is a Clinical Nurse Specialist (UK), Co-ordinator of the Haiti Spinal Cord Injury (SCI) Database and Haiti Spinal Cord Injury Working Group: [www.haitisci.org](http://www.haitisci.org). She is also a member of the International Spinal Cord Society (ISCoS) Education Committee and Co-Founder of the International Network of Spinal Cord Injury Nurses: [www.scinurse.org](http://www.scinurse.org).

\*\*\*\*\*

Fiona is a contributor to the book "[Gun Violence, Disability and Recovery](#)" (Surviving Gun Violence Project, 2014).

During this webinar, she will be reflecting on the focus on Haiti in the

book as well as the work underway in Haiti to better understand, and address, spinal cord injury in the poorest country in the Western Hemisphere. Gun violence is a leading cause of spinal cord injury in Haiti, now surpassing the caseload from the 2010 earthquake and posing a range of health and human rights challenges.
